

**REGOLAMENTO DIDATTICO DI CORSO DI LAUREA MAGISTRALE IN
“INNOVATION AND ORGANIZATION OF CULTURE AND THE ARTS”
- PARTE NORMATIVA -**

English version

Art.1 Entry Requirements

1. For admission to the Graduate degree in “Innovation and Organization of Culture and the Arts” (hereafter GIOCA) it is necessary to have:

- At least a bachelor degree or an equivalent degree from an Italian or foreign university
- English language proficiency
- A good general knowledge and notions of culture and the arts
- A strong vocation for the relevant contents and topics of the Program.

2. Moreover, for admission to the GIOCA Program, the acquisition of at least 5 academic credits in one or more of the following scientific-disciplinary sectors is required:

- SECS-P
- L-ART
- IUS
- SPS
- M-STO

3. If no above-mentioned credits have been achieved, the admission to the GIOCA Program is subjected to a preliminary assessment by a Commission that ascertains, by means of interview, the requirements. The Commission, appointed by the council of the Program, will arrange a schedule from June to September, for the interviews, which will be published on the University’s website. If the Commission considers the level of the student’s knowledge and competencies to be satisfactory concerning the requirements, the student is allowed to apply for the GIOCA admission test.

4. The admission to the GIOCA Program is subjected to a verification of the preparation and the academic degrees, which methods and criteria will be specified in the Application. The GIOCA admits a specific number of students depending on the resources available. In the case that more students pass the selection, based on the available positions, the number of enrolling students and the selection process will be specified in the Application.

Art.2 Mobility Rules between Degree Course Curricula. Individual Study Plan.

No curricula are provided by the GIOCA Program.

The Student can choose from within the teaching plan, following the methods indicated in the plan itself and in the terms that are indicated yearly by the Faculty and published on the University website.

Individual study plans are not permitted.

Art.3 Methods for the academic activities and types of teaching

According to Clause 23, Paragraph 1, of the University Regulations, the enclosed teaching plan indicates the methods of each teaching activity and its relative subdivision by hours of classroom lectures, practical exercises or training, as well as the type of teaching activity.

Any further information will be published yearly in the Student handbook.

Art.4 Attendance and Preparatory Exams

The attendance of teaching activities is compulsory for a minimum of 70 %, with the exception of specific cases to be assessed in the GIOCA council.

Methods and assessment of the compulsory attendance are set each year by the Degree Course during the teaching planning presentation and are made known to the students, through the Student handbook, before the beginning of the lectures.

Art.5 Assessment Test for teaching activities

The attached teaching plan provides for the cases where the teaching activities end with an exam marked on a scale of 30 (18/30 being the minimum pass mark) or assessed to have acquired the necessary competencies.

According to the principles set down in Clause 20, Paragraphs 3, 4 and 5 the University Regulations, the methods for the assessment (e.g. oral, written or practical forms or any possible combination of the three; individual or group assessment) are set yearly by the Degree Course teaching plan presentation, and are made known to the students, through the Student Handbook, before the beginning of the lectures.

Art.6 Teaching activities autonomously chosen by the student

The student can indicate, as teaching activities independently chosen, one or more subjects/teaching activities provided by the Course and any individual subject enclosed in the teaching plan.

These teaching activities are pertaining to the contents and topic of the Program.

If the student wants to take an exam related to a subject which is not provided by the Degree Course Council nor enclosed in the teaching plan, he/she must ask the Degree Course Council for the permission to take that specific exam within the terms determined yearly and made known through their publication on the University website. The Council will assess the compatibility of the choice with the student's learning itinerary.

Art. 7 Criteria for the recognition of credits earned within the Degree Course belonging to the same area of study (class).

The University credits achieved are recognised, provided that they reach the number of credits required by the same disciplinary scientific field provided by the teaching plan attached.

If, once the credits have been recognized according to what is provided by the currently applicable Regulations, there are extra credits, the Degree Course Council can decide to recognize them after evaluating the specific case according to teaching affinity and cultural aspects.

Art. 8 Recognition criteria of the credits achieved in a Degree Course belonging to a different class, within telematic Universities and international Degree Courses

The University credits achieved are recognized by the Degree Course Council according to the following criteria:

- course contents

- evaluation of the congruence of the disciplinary scientific fields and of the contents of the academic activities with the same specific learning outcomes of the Degree Course and of the single academic activities that need to be recognized, for which the student has earned credits. All of this pursues the aim of promoting student mobility.

Recognition is possible if the student has achieved the number of University credits provided by the enclosed teaching plan.

Art. 9 Recognition criteria of extra-University competencies and skills

Competencies achieved outside the University are recognized in the following cases:

1. professional competencies and skills certified according to the applicable laws;
2. when the competencies and skills have been achieved within Post-Graduate teaching activities organized or offered by a University, pertaining to the contents and topics of the Program,

Recognition will be determined by the Degree Course Council taking into account the guidelines indicated by the Academic Bodies and the maximum number of credits that can be recognized in accordance with regulations of the Degree Course, and the maximum number of recognizable credits.

Recognition is possible if the academic activity complies with the specific learning outcomes agreed for the Degree Course and the activities that are due to be recognized, provided that they fulfill the required content and duration (hours) of the activity carried out.

Art. 10 Final examination methods

The final examination, aimed to obtain the degree, consists of

- the realization of a project work based on a deep-contact experience about management issues within a cultural and artistic organization, concerning a topic previously decided with a Professor. After the evaluation of the project work under a pass/fail logic, 6 credits are recognized
- a final paper and presentation of the thesis, originally realized by the student on the project work (for 10 credits), under the supervisor's guidance.

Art. 11 Correspondence between the credits assigned to each teaching activity and the specific learning outcomes determined

The Teaching Commission on (date) ... approved according to clause 12, paragraph 3 of DM 270/04.

Art. 12 Temporary regulations

The Degree Course Council, according to the changes to the teaching plan, decides on the regulations to be complied with by the students enrolled in the previous academic years of the Degree Course, to be published in the academic programme
